## BRITISH TROOP SHIP CALLING FOR HELP

VLADIVOSTOK, Jan. 14. (By the Canadian Press.)—The British troop ship Proteus has sent out wireless appeals for assistance. The British cruiser Kent has hurried to her assistance and the Brooklyn, of the American navy, is ready to leave if further aid is necessary. The Proteus broke her propeller, but latest reports said that all on board were safe. First reports said the Proteus was limping back to this port. It later was reported the steamer might effect temporary repairs and continue to Japan for permanent repairs.

With a total contingent of 500 officers and men, the steamer Teesta has arrived here. She had aboard 1,000 Canadian troops and companies of Canadian infantry under command of Col. Swift and a machine gun unit.

VANCOUVER, B. C., Jan. 14.—The British steamer Proteus left Vancouver about Dec. 15 last, with troops and mail for Vladivostok. Canadian censorship regulations, however, forbade any mention of the personnel the steamer had on board. It is believed here, however, that the vessel had discharged her troops and was on the return voyage by way of the Orient.

## Afraid To Tell Mother!

The child won't play or smile. He is real sick. His tongue is white, breath feverish, stomach sour. He fears he is in for a dose of awful castor oil, calomel or pills. How he hates them. He would rather remain sick.

If his mother would only learn the value of candy "Cascarets." How children love this candy cathartic—how surely it acts on liver and bowels.

TO MOTHERS! Each 10 cent box of Cascarets contains full directions for dose for children aged one year old and upwards. Nothing else "works" the nasty bile, sour fermentations and constipation poison from the tender little bowels so gently, yet so thoroughly. Even cross, feverish, bilious children gladly take Cascarets without being coaxed. Cascarets taste just like candy. Cascarets never gripe, never sicken, never injure, but above all, they never disappoint the worried mother.

## BOLSHEVIST TROOPS COVERTLY ENTER CITY OF WARSAW

(Continued From First Page.)

emotional sympathetic elements here. Reports of Spartacist successes in Berlin had an immediate effect in Warsaw.

A Lodz manufacturer, who has arrived here after being driven from that city by the demands of workmen, said today:

"The allies must understand that Bolshevism is a disease the same as influenza and that it is spreading westward."

It is believed here the Germans, on retiring from Poland, will hold up the advance of the Bolsheviks for a couple of weeks or more. The people here, however, place little dependence in any relief from this direction.

## ORDER RESTORED IN CITIES OF GERMANY

BERLIN, Jan. 14. (By the Associated Press.)—Order has been completely restored in cities outside of Berlin, where the Spartacists had re-established themselves, according to reports received here.

Spandau, which has been placed under martial law, is quiet. Fifty-five Bolsheviks have been arrested, one of their leaders killed and several wounded. All have been disarmed.

Spartacist leaders at Hamburg have been arrested by military police, who had difficulty in protecting them from enraged citizens. The situation there, however, still is tense.

Spartacist leaders at Dresden, when arrested, admitted they had intended to forcibly prevent elections to the national assembly. A newspaper at Wilhelmshaven has been surrendered by the Spartacists.

The executive committee of the soldiers' and workmen's council at Aile has resigned as a protest against the Bolsheviks and has ordered the election of a new council.

## VIENNA EXPELS BAND OF ALIEN BOLSHEVISTS

GENEVA, Jan. 14.—Vienna expelled a large band of Russian Bolsheviks following the example of the French and Swiss authorities. Twenty of the "outs" of the city were spreading propaganda while being engaged in the Red Cross work.

## PREDICTS FLIGHT OVER SEA BY MAY

LONDON, Jan. 14. (British wireless service.)—Gen. Branner, who is giving up his post as master-general of personnel in the air ministry to devote his time to commercial aviation, in an interview with the Daily Express, asserted that a flight across the Atlantic probably would be accomplished in May.

He added that the trip was feasible at the present moment as there were three or four types of airplanes available which are capable of making the flight. Gen. Branner said the time was not far distant when airplanes would be owned and driven by strikers.

He said it probably would be necessary to establish an aerial police force, the duty of which would be to watch over air routes and frontiers.

The Evening News says it has been officially informed that the British admiralty is embarking on a big program of airship construction. Airships are being built with a sea capacity of 3,000 cubic feet. The aircraft will have a large lifting capacity and will be able to make between 60 and 70 miles an hour. They will carry crews of 25 men.

Still larger airships are being constructed and flights with passengers are predicted for the near future.

The largest ship which will be built and which are of a similar rigid type are being constructed for sea work and general observation duty for the navy.

It is said that the British admiralty is planning to build a fleet of rigid type airships, which will be capable of remaining in the air for a week. The newspaper says a regular airship service between England and the United States during the summer of 1920 is regarded as certain by airship builders.

## YANKS BUY IRON CROSSES AS SOUVENIRS FROM HUNS

WITH THE AMERICAN ARMY OF OCCUPATION IN GERMANY, Jan. 14. (By the Associated Press.)—The largest barracks in Coblenz continued to operate as usual during the switch from German soldiers to those of the American army of occupation. A German civilian with two young women assistants managed the canteen while the German soldiers in the barracks, and when the Americans arrived it was agreed that the same arrangement would continue.

The Germans had a thriving business. All the iron crosses which the canteen manager had bought from the Germans in a hurry by the American infantrymen—by those of the soldiers who had not secured a souvenir of this kind on the battlefield.

## CLAIM REBELS FORCED WAY INTO PALACE

GENEVA, Jan. 14.—Details of the proclamation of a republic in Luxembourg, which have reached here, say that revolutionaries forced an entry to the palace of Grand Duchess Marie and demanded her abdication. The grand duchess refused on the ground that the parliament had not made such a request. She was given 24 hours to leave her capital and was told that she would be permitted to take only her personal effects. She consented to go to her residence in the city. In the meantime the parliament held a disorderly meeting.

Grand Duchess Marie has a minority following. It is said, being mainly clerical. As a protest they left the parliament building. The former emperor's son, who is a member of the grand duchess's household, is said to have been arrested by the revolutionaries and other German officers and also permitted her sister to become engaged to Crown Prince Rupprecht of Bavaria.

It is said the people desire to be absolutely independent of German control. Reports received here declared that it is not probable that Grand Duchess Marie will return at once to the city of Luxembourg.

## RETURNING YANKS HAVE PLENTY OF GREENBACKS

LIVERPOOL, Jan. 14.—American soldiers ordered home since the signing of the armistice are not leaving England without funds. Most of them have some money, and some of them have considerable amounts.

One Red Cross officer who has been here from London changing the money of the soldiers from pounds to dollars, in order that they may have the currency of their own money when they reach America, says:

"I have changed the money of some thousands of men and not one of them has less than two months' pay to take home with him. Some of them have as much as \$100, while here and there was an especially thrifty fellow with \$125. When it is remembered that the boys have been subjected to the temptations of buying souvenirs for their home folk in a strange country and that they have been paying war prices for all they bought, it can be seen they have done very well."
